Kaloyan Radostinov Yonov

About me:

I am a quick learner with a positive attitude, known for being easy-going and easy to work with. I am highly motivated to contribute my skills to a dynamic team and dedicated to achieving collective goals. With a strong commitment to continuous professional development, I am eager to apply my knowledge and grow within a supportive and forward-thinking environment.

Experience

January 2026 - July 2026

Vention - Frontend Internship

During my internship at Vention, I learned to build full-stack features on a dashboard platform for managing gas station networks, using NestJS on the backend and Next.js with Tailwind CSS on the frontend. I worked on the authentication flow with role-based access control, implemented station creation/editing, user invitations, and account suspension, and integrated Brevo for transactional emails to handle onboarding and account notifications.

Education:

October 2020 - Until now

Faculty of Mathematics and Informatics, Sofia University "St. Kliment Ohridski"

Bachelor's Degree – Software Engineering, Sofia

Languages:

Native language: Bulgarian

English: Comprehension (Fluent), Speaking (Fluent), Writing (Fluent)
